INDIAN HEAD MASSAGE

Indian head massage is a relaxing holistic treatment that uses acupressure massage on the head, face, neck and shoulders. It aims to rebalance your body's energies. This form of massage focuses on the three higher "chakras" - mind, body and spirit and as such hits your energy epicentre. It doesn't seem sufficient to say that a good, long Indian head massage (involving proper neck and shoulder and back massage as well) will relax you. It's more than this. It should actually make you feel detached and serene, and leave you sighing and wordless.

AROMATHERAPY MASSAGE

This is truly one of the most therapeutic massage treatments Blossom & Jasmine has to offer. Essential oils are used throughout to relax your mind and body, while your therapist works on your entire body for a full hour. During and after this aromatherapy massage once at home your body will feel rejuvenated and deeply relaxed. Aromatherapy massage is perfect for anyone experiencing a lot of stress in their lives and is a perfect counterbalance to the frantic pace of modern life.

SWEDISH BODY MASSAGE

A Swedish massage relaxes your entire body, relieving stress and tension from all of your muscles. Your massage therapist will customise your body massage to give you the perfect pressure and to focus on problem areas unique to you. Feel the stress of your day melt away under the expert hands of our massage therapist.

SIGNATURE SPA FACIAL

A signature facial is designed to thoroughly rejuvenate the skin on your face. The initial luxury spa facial double cleanse removes all oils and toxins from the skin and then a light face and neck massage will relax your face and your mind. A mask is applied and, once dried, is gently removed with a warm towel. The skin will become more supple, toned and regains "bounce", glow and the radiance of youth.
